

Dylan Schoupe | 724-987-3758 | hi@dylanschoupe.com

To whom it may concern,

My name is Dylan Schoupe, and I am a mental health professional and clinical mental health counseling student. I am well-trained in the areas of counseling skills and treatment planning. I have an earnest desire to contribute this knowledge to furthering the values of the counseling field.

As a milieu therapist for UPMC Western Psychiatric Hospital, I've garnered experience in a high pressure, in-patient setting providing individual and group counseling and programming implementation since March 2023. While most of my time in this position is spent on a unit treating depressive, anxiety, and psychotic disorders, I'm also the co-chair of the Patient Experience and Safety Council, as well as a member of the Diversity, Equity, and Inclusion Council. Additionally, as a clinical counseling intern at Western PA Psych Care, I study under a seasoned professional counselor and manage a case load of clients by providing individual counseling, treatment planning, and assessment in an out-patient setting. I am extremely passionate about the counseling field, and I consider the space that is held for suffering individuals to be both precious and stimulating.

Please find my resume attached, which details my additional qualifications. I look forward to discussing these qualifications with you personally and greatly appreciate your time and consideration.

Cordially yours,

Dylan Schoupe
